

To whom it may concern

Letter of Reference

I have had the pleasure of teaching Andreea-Isabel Asimine in one of my courses at the Software Engineering programme at VIA University College. She participated in the course “Software Development with UML and Java 1”. Besides this, I was the supervisor for one of Andreea’s semester projects, where she developed a software solution in Java together with a group of her fellow students.

From all of this, I have come to know Andreea as an excellent student. She performed very well in the course and showed a high level of motivation and interest in learning throughout the course. This led to her finishing the course with the highest grade. Through the group work in the semester project, Andreea displayed her ability to not only work well independently, but to do equally well when working together with others. Again, Andreea received the highest grade for the project.

Andreea gets my highest recommendations.
